GOLD AWARD: Property Frontiers Ltd

Established in 2004 Property Frontiers was founded with a vision of offering the best service and most innovative, well researched and pioneering international property investments. Over nine years on, we have conducted over 3,500 transactions (with nearly 2,000 investors) and have built a loyal investor base and brand. We really do not believe that any other company has the same commitment to independent research, thorough due diligence and a professional and consultative approach. We act as responsible, professional players in what is still a largely unregulated market. Don't take our word – see our testimonials and awards to independently verify this.

SILVER AWARD: Home Hunts

Established in 2005, Home Hunts offers a complete professional property search service for clients interested in purchasing luxury properties across France, Switzerland, Monaco, London and New York. As a property finders' service we act on behalf of the buyer predominantly to find high end properties of typically €1m and above.

We collaborate with all of the best estate agents, notaires, developers and private sellers to bring the ultimate selection of properties in each desired area. We do take properties for sale directly but unlike a traditional agent, we are not restricted to the properties on our books and we search the entire market for our clients.
